

RANKIN & MINGLE  
DENTISTRY

Rankin & Mingle Dentistry is a laser, implant, cosmetic and general dentistry practice that uses the power of one to improve your life and provide the ultimate peace of mind.

That means one-on-one patient focus, being number one in education and technology, and providing a comprehensive array of services all in one location.

That adds up to dental care that improves your oral health, wellbeing and life.

We are more than the average dental office, offering services beyond general dentistry, such as soft tissue treatment, implant placement and restoration, as well as Juvéderm™ and Botox®. We even have advanced technology that allows for crowns in one day.

Here, your needs are important to us, and we are happy to accommodate your feelings, schedule and payment preferences.

**Visit Rankin & Mingle Dentistry and look forward to a warm welcome, a big smile and a great experience.**
